**Dr. Christopher's School of Natural Healing**

## **College of Homeopathy**

### **COURSE DESCRIPTION**

Homeopathy is a low-cost, nontoxic system of medicine used by hundreds or millions of people worldwide. It is particularly effective in treating chronic illnesses that fail to respond to conventional treatment, and is also a superb method of self-care for minor conditions such as the common cold and flu.

Homeopathic medicines are great for emergencies! They are SAFE to give anyone, including infants, pregnant and nursing women and anyone on any prescription medications. They will not interact with any medications, yet can work to normalize healthy functioning of the body.

The School's Basic Homeopathic Course is designed to empower you with the knowledge and confidence needed to tackle most any health issue. The Basic Homeopathic Course is essential for anyone who wants to take charge of their own health and become more informed, educated and independent. This course explores important concepts in natural medicine that even the most experienced natural healers need to know for success.

This course is taught by David Card. David brings a lifelong passion for health and wellness to Dave's Health & Nutrition. His unique balance of education, intuition and experiences has drawn over 10,000 one-to-one clients in his working life – over 3000 last year alone.

Dave holds a Bachelor's Degree in Psychology from the University of Utah. He has been involved in the health and nutrition field since 1980, graduating as a Certified Homeopath (C.H.) from the Hahnemann Academy of North America. He holds a Master Herbalist (M.H.) degree from The School of Natural Healing in Springville, Utah.
